

## Open Beta Test of Korean Version of Eternal Blade Launched

Tokyo, Japan – January 16, 2012 – Gala Inc. today announced that the open beta test of the online game Eternal Blade was launched in Korea on January 16, 2012 by Seoul-based consolidated subsidiary Gala Lab Corp.

### 1. Overview of Eternal Blade

Eternal Blade is the completely overhauled and re-branded version of IL, an MMORPG from Gala Lab Corp. IL was launched in May 2010, but had been suspended since November 2011 for improvements and additions to the content of the game in response to the many opinions and requests from its users. Among its many new features are a third-person camera mode that provides an intimate, hands-on feel to the action, and a non-targeting combat system that allows players to attack multiple targets at once.

### 2. Schedule

The open beta test was launched on January 16, 2012, and the full launch including sale of cash-shop items is planned for late January.

### 3. Future efforts

The Gala Group will continue to provide superior games and strive for global expansion of its online games business.
